

WELCOME BACK TO THE RANCH

We have missed you dearly and are thrilled our signature weeklong wellness program is open with 4.0 and 10.0 expected to resume in 2021, date to be announced. When you are ready to devote a week or more to your precious health, The Ranch will be here for you. Be assured that when we return, the program will have the same results-oriented rigor delivered by our experienced and nurturing staff, applying the same attention to detail, intuitive service and personalized care.

Our team has been preparing for your arrival and we wanted to share the enhanced health and safety precautions we are taking for our guests and staff.

General Information:

- The Ranch Malibu spans 200 acres in the Santa Monica Mountains and offers a small group setting, spacious grounds and open-air common areas to naturally lend themselves towards these new protocols.
- Ranch Protection Kits will be provided for each guest which will include a travel mask, Ranch bandana and hand sanitizer.
- Guests and staff will be expected to wear masks in interior common areas, yoga and during massages. Once settled in stretch, fitness and dining the mask can be removed as we are ensuring proper social distancing. During hikes and while outdoors when properly distanced, masks are optional.

New Programming Options:

- We are excited to introduce - The Ranch Private - a personalized program to achieve results that is distant from the larger group. The program is priced at \$11,000 per person.
- The Ranch Malibu will temporarily welcome guests arriving on Saturday to stay at the Ranch the night prior to program commencement on Sunday. Multi-week guests may also choose to remain on the property on Saturday. This overnight stay, along with elective programming will be offered at an additional one-day rate starting at \$850.

Continued . . .

Daily Schedule Adjustments:

- Guest and Staff temperatures will be taken daily. Anyone with a temperature in excess of 100.3 would be asked to depart the Program and property for the safety of the other guests and staff.
- Transportation will be done with fewer occupants in each vehicle.
- We will host the stretch, fitness and yoga classes in smaller numbers to ensure proper distancing. A Molekule air purifier, which uses UV technology, will be used in our Buddha Barn fitness center.
- All massage cottages are equipped with Molekule air purifiers and housekeeping will be sanitizing the room after each guest.
- Three dining spaces, including our outdoor garden cafe are offered to allow for greater space for guests.

Enhanced Cleaning Protocols:

- While we have always been sticklers for cleanliness, we have adopted additional cleaning standards and will also adhere to the CDC recommendations.
- Should a guest prefer to maintain a 100% Private Room and opt-out of having anyone enter their room including daily housekeeping during their visit, we will have laundry bags that can be left outside your room to be picked up daily.
