Set on a historic working ranch three miles above the Pacific Ocean, The Ranch Malibu spans 200 acres in the Santa Monica Mountains and provides the perfect setting to calm the mind, return to nature and focus on your health and wellness goals. Guests are in a sequestered environment with no cell and limited wi-fi service available to further aid in a mental detoxification.

## 7-DAY SIGNATURE STAY

Upon completion of the program guests feel both physically and mentally transformed, logging over 60 miles of hiking, shedding unwanted pounds and inches, emanating a vibrant, healthy glow and regaining mental clarity and peace of mind. A weekly garden tour, cooking class and a full list of recipes are offered along with nutritional and fitness guidance from The Ranch experts, that continues after departure, to support guests in sustaining the benefits of their stay.

*" With the help and encouragement of the staff and other guests, I was able to push myself past my comfort zone and achieve more than I ever thought possible. I left with a whole new outlook on diet and fitness that I know I will carry with me for life. "*

*- L.G.*

**WOMEN AND MEN ROUTINELY LOSE 3%-6% OF THEIR BODY WEIGHT ALONG WITH SUBSTANTIAL INCHES OF FAT LOSS AND MUSCLE GAIN, IMPROVED CHOLESTEROL LEVELS, BALANCED IMMUNE SYSTEMS AND MENTAL CLARITY.**

## NESTLED IN NATURE WITH NO DISTRACTIONS

The sprawling grounds are designed to be rustic, yet refined and feature an open-air kitchen and great room, certified organic garden, pool and jacuzzi and massage "village." Guests can also enjoy more unique health services and treatments, including cholesterol testing, Bod Pod body composition analysis, IV Therapy, chiropractic treatments, a weekly sound bath, a cold plunge pool and infrared and cryotherapy saunas.

Afternoon classes and yoga are held in The Barn fitness center. This new 3,000 square foot building allows each guest to have a personal fitness area within the larger training space, complete with their own yoga mat, weight set, BOSU ball, TRX strap and other accessories. An additional room was also created for spin bikes, treadmills, weight training machines and other equipment, including a 25 foot climbing wall.

Following the invigorating daily schedule, guests retreat to one of 21 private cottages, each beautifully decorated with reclaimed wood floors, limestone bathrooms, and linen-covered queen and king-sized beds. Guests can also choose to share a room with their partner, son/daughter or friend in rooms featuring one king bed or two queen beds.

*" My visit to The Ranch couldn't have been better timed. I have been incredibly stressed, lacking sleep, not eating the healthiest of foods, and not much in terms of exercise was really starting to effect my body. The Ranch showed me just how important it is to take more than a day or two for me – something I hadn't previously done in at least a decade. I lost 8 lbs and 2 inches off of my waist at The Ranch. Equally satisfying is I have integrated exercise every day or every other day since my return. "*

# THE RANCH PRIVATE

While our Ranch program is traditionally limited to 25 guests each session, The Ranch Private allows two groups of up to four guests ( must be coming together ) the opportunity to craft their own experience separate from the larger group. This immersive, weeklong health program is ideal for those who wish to escape to nature and experience the lasting results of our award-winning program, while having a personalized approach that is distant from the other guests on property.

This program is individually tailored to address those with specific concerns or desires that limit participation in our group-based programs. The Ranch Private can also be designed for those advanced athletes that are always asking for even more of a challenge. You can hike longer and run more miles. We can also happily increase the intensity of our afternoon fitness classes.

## PERSONALIZED WELLNESS IN A HIGHLY INDIVIDUALIZED FORMAT

Working with you/your group, our team will design a program that meets your personal health and fitness goals. Upon completion, you'll feel both physically and mentally transformed, logging miles of hiking, losing weight and inches, emanating a vibrant, healthy glow and regaining mental clarity and peace of mind.

## RESULTS TAILORED TO YOUR GOALS

## PRIVATE RETREAT IN A NATURAL SETTING

With the sprawling grounds of The Ranch Malibu as your home for the week, Ranch Private guests will have their schedules choreographed to enjoy our certified organic garden, pool and jacuzzi, private training room, massage "village," and open-air kitchen and great room, separate from the other guests. Additionally, our team can ensure you have secluded spaces for meals and fitness classes should you wish to avoid the common areas.

*"The beauty of the Ranch Private experience was that I could moderate how much social time I wanted by eating meals in my room or with the group as well as working out solo for the hikes but with the group for yoga. This enabled me to have plenty of quiet, contemplation time as well as interesting interaction with other guests."*

# THE RANCH ITALY

## GAIN MEASURABLE RESULTS & A DEEPER UNDERSTANDING OF YOUR HEALTH!

The Ranch's newest program, The Ranch Italy at Palazzo Fiuggi combines our award-winning, results-oriented fitness program with the services and expertise of the esteemed team at this renowned medical wellness retreat. Limited to 25 participants each week, guests can choose from either a 4-night, 5-day option (available year round) or, from April - December, a 7-night, 8-day experience.

Each program features a daily schedule that mirrors The Ranch Malibu's signature active routine including a four-hour morning mountain hike, nap time, afternoon strength and core training classes, yoga and daily massage. During their stay, guests also receive diagnostic testing, a blood panel and a consultation with one of the renowned doctors at Palazzo Fiuggi. The rigorous routine is complemented by a nutritionally-dense, plant-based menu with an Italian flair, created by The Ranch's Executive Chef and prepared by 3-star Michelin Chef Heinz Beck and his Palazzo Fiuggi culinary team.

## DIAGNOSTIC TESTING PAIRED WITH A MEDICAL CONSULTATION ENHANCE YOUR ACTIVE STAY

In order to offer a more complete understanding of your current health, guests of this program have the opportunity to undergo diagnostic and blood testing along with a consultation with one of Palazzo Fiuggi's world-class physicians. The biomarker testing not only informs the medical team of any deficiencies or underlying concerns one might be experiencing, but also opens the conversation up to areas that can be improved or optimized to increase vitality.

The result is an immersive and transformative program that gives guests a more complete picture of their overall health and longevity. You'll leave with a greater sense of self, feeling rested and rejuvenated, gaining strength and mental clarity while losing fat and inches.

## A HISTORY OF HEALING

Located on an ancient hilltop surrounded by centennial sequoia trees in a private 20-acre park, just 50 minutes from Rome, Palazzo Fiuggi is an historic property nestled in one of Italy's richest naturalistic areas. Known for the unique healing powers of its water since the early fourteenth century, the region was often visited by royalty, popes and masters of the Renaissance, including Michelangelo, for its restorative qualities.

At 700 meters above sea level, the newly renovated retreat offers clean and pure oxygen-rich air that creates the ideal altitude for personal transformation. The luxurious property and five-star service mirror what is offered at The Ranch as guests stay in private accommodations with views overlooking the grounds of the park or "old town" of Fiuggi.

*If you are looking for the ideal combination of The Ranch experience mixed with the beauty of Italy, this program is perfection! The program and meals are what you expect from The Ranch setting in Italy and the hikes and the spa are beyond. Bravi Team!!!! - B.B.*

Guests of The Ranch program can also enjoy the retreat's panoramic indoor and outdoor pools. A highlight of the experience is Fiuggi's world-class spa or Roman Thermae, which includes the use of the Swedish sauna, cold plunge, Kneipp pools and the ancient healing waters of the area. Guests also have access to the state-of-the-art 4,300 square-foot fitness center, complete with Technogym, Pilates, Yoga and Reaxing Training equipment.

## CUISINE

Our rigorous daily program is complemented by a nutritionally-dense, plant-based diet that is a highlight for guests and a key component of our results-driven approach. Using ingredients sourced from our onsite certified organic garden or nearby local farms, research and care has been strategically stirred, sous-vide-d and baked into every nutritionally balanced bite.

Designed to sustain you throughout the demanding program, the 1,400 calorie daily diet features the finest fruits, vegetables, grains, pulses, legumes and seeds, while excluding alcohol, caffeine, dairy, soy, processed sugars, diet sweeteners and gluten to aid in the cleansing and revitalization process.

Meals are enjoyed in a communal setting. Malibu features multiple indoor and outdoor dining spaces including an outdoor garden cafe and post-hike lunches on the beach. In Italy, meals are also done as a group, in a private dining room overlooking the mountains and ancient hilltop town of Fiuggi.

Mealtimes are used as an opportunity to discuss and educate guests on the tools for maintaining the healthy habits learned from their stay. We are able to accommodate most allergies and the calorie count can also be adjusted for those guests not looking to lose weight with larger portions and more snacks.

*“ While I really enjoyed everything, I have to say the food was beyond delicious  
– tasty, healthy and filled with passion - and I was never hungry! ”*
